

Building a strong brand identity

This guide is a quick reference for applying the Gainwell visual identity to print and digital media. Consistent use of the brand drives recognition across all of our markets.

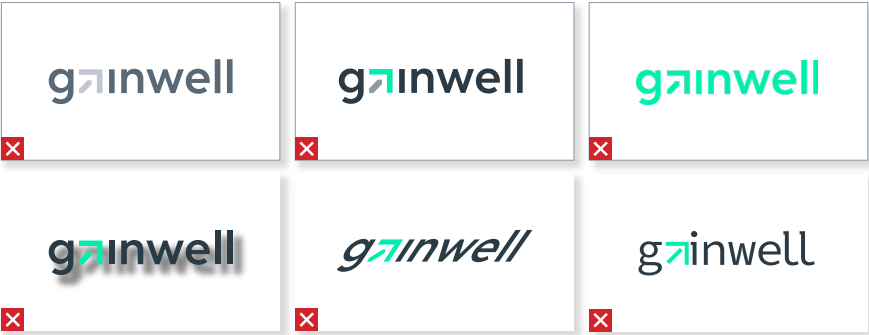

LOGO

Correct Usage

Our color logo is used on light-colored or white backgrounds for most applications. The color reverse logo is available for use on soft black and gray 4 backgrounds, or when the color logo lacks clarity on dark photography.

Incorrect Usage

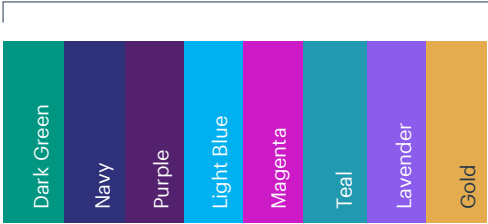

DO NOT: Alter the logo colors, alter the colors of the symbol within the logo, apply drop shadows or other effects, twist, bend or misshape the logo, or attempt to recreate the logo.

TYPOGRAPHY

Graphik

The Graphik font family has a wide range of type weights that satisfies any hierarchy needs.

Light, Regular,
Medium, Semibold, Bold

Arial

Use Arial for PowerPoint presentations, Word documents and other digital elements.

Regular, Bold

PHOTOGRAPHY

Imagery is an expression of who we are. Photography should be modern and engaging. Avoid posed or clichéd stock photos. Use images with interesting perspectives, artful cropping and rich colors.

ICONOGRAPHY

Icons are a simple and direct way to guide users through your message. They are purposeful and should never be used decoratively. Icons should only appear in brand colors.
